BINDT
THE BRITISH INSTITUTE OF
NON-DESTRUCTIVE TESTING

APPROVED OUTSIDE AGENCY

AEROSPACE INSPECTION TRAINING LTD

Units 9 &10 Takeley Business Centre, Dunmow Rd, Takeley
Essex, CM22 6SJ, United Kingdom

has been assessed by BINDT and is
approved to provide the following services:

Training and Examination of NDT Personnel in support of employer based certification in accordance with EN4179.

BINDT approval is conditional upon the organisation continuing to provide the specified service to the standard witnessed during initial assessment, which will be confirmed at a biennial re-assessment.

Outside Agencies approved by BINDT are recognised by the UK NANDT Board, which determines the criteria for approval of outside agencies, and maintains an overview of the implementation of the assessment and approval procedure.

Date of initial assessment: 24th February 2005

Issue date of this approval: 7th June 2022

Expiry date of this approval: 6th June 2024

Signed for BINDT

D Gilbert
CEO

CERTIFICATE NUMBER: NANDTB/0004

The British Institute of Non-Destructive Testing is an accredited certification body offering personnel and quality management systems assessment and certification against criteria set out in international and European standards through the PCN Certification Scheme. Approval of Outside Agencies offering NDT personnel qualification services to clients is undertaken by BINDT at the request of an Outside Agency to engender confidence in the quality of the specified service provision.

Main Methods as Specified in EN4179	Techniques	Materials
Penetrant Testing (PT)	F. Water Wash F. Post Emulsified Colour Contrast Solvent Removable	Metallic Materials Metallic Materials Metallic Materials
Magnetic Testing (MT)	Wet Horizontal Bench systems Portable Systems	Metallic Materials Metallic Materials
Ultrasonic Testing (UT)	Contact Testing A-scan display Through Transmission C-scan display Immersion C Scan Display Thickness Gauging Phased Array	Metallic Materials/Composites Metallic Materials/Composites Metallic Materials/Composites Metallic Materials/Composites Metallic Materials/Composites
Radiography (RT)	X-ray using film Interpretation Computerised Radiography	Metallic Materials/Composites Metallic Materials/Composites Metallic Materials/Composites
Eddy Current (ET)	High Frequency Low Frequency Dual Frequency Dynamic (Rotating)	Metallic Materials Metallic Materials Metallic Materials Metallic Materials
Thermography Testing (TT)	Stand alone camera applications Dynamic Systems	Metallic Materials/Composites Metallic Materials/Composites

Non EN4179 Main Methods	Techniques	Materials
Acid Etch Inspection	Steel Titanium Nickel Based Alloys	Metallic Materials
Anodic Flaw Detection	Aluminum Alloys	Metallic Materials
Conductivity Testing	Instrument based techniques	Metallic Materials
Hardness Testing		Metallic Materials
Bond Testing	Instrument based techniques Manual	Metallic Materials/Composites
